Stevens Resource Group Inc. first to win RBC Canadian Woman Entrepreneur Momentum Award

Tuesday, November 22, 2005

WOODSTOCK, ON – Sherri Stevens, President of Stevens Resource Group Inc., a regional Human Resources firm was presented with the first ever RBC Momentum Award at the Canadian Woman Entrepreneur Awards (CWEA) ceremony at the Metro Toronto Convention Centre.

“RBC’s Momentum Award is perfect for us – our business has had momentum for the past decade and it just keeps going and going.” That is Sherri’s reaction to winning the award at the CWEA ceremony sponsored for the first time by RBC Financial Group. The event provides national recognition to Canada’s women entrepreneurs, whose successful businesses play a pivotal role in the growth of our local, national and global communities.

About Stevens Resource Group

In 1990, Stevens opened Nine to Five Personnel Services in Woodstock, ON, a one-person branch company focusing on clerical and administrative staffing. Within the first year of business, increasing requests for industrial requirements shifted the business focus. In order to reflect the company’s future diversification, she changed the name to Stevens Resource Group Inc.

Today the company has grown from a one-person office to ten branches strategically located throughout Southwestern Ontario and employing over 600 temporary and full-time staff.

This year Stevens Resource Group celebrates 15 years in business, an achievement Sherri is most proud of. Stevens Resource Group provides a comprehensive suite of human resource services including temporary and contract staffing, professional search, training and consulting, and employee assessments.

About RBC Momentum Award

The momentum award will be presented each year to a Canadian Woman Entrepreneur who has successfully overcome obstacles and capitalized on opportunities to deliver profitable growth for more than 5 years. Through expanded management, empowered employees, and demonstrated excellence, she has created a flexible and responsive business that is able to adapt to changing market environments and exploit opportunities for continued growth.
